

Job title: .Net Developer

15below's Vision:

To become the undisputed global leader in traveller communications by providing the single competitive advantage in travel: customer engagement through brilliant communications.

We make journeys easier and more enjoyable by giving our customers and their passengers a stronger sense of control. From disruption management to hyper-personalised pre-departure communications and mobile boarding passes, we build the technology to help companies stay connected with their customers at every stage of their journey.

Established in 2000, we have since grown to become one of the travel industry's major suppliers of passenger messaging solutions. More than 45 airlines, including Qantas, Virgin Australia, Ryanair and JetBlue use our notifications platform. With big ambitions for the future, it's time for us to expand our growing team and we're hoping you are who we're looking for.

The role:

We truly believe in technical and professional excellence. As part of a rapidly growing team of 115 people you'll share our values of Connected, Collaborative, Progressive, Knowledgeable and Enjoyable. With your knowledge and expertise, you will be helping 15below to continually push the boundaries.

As a Developer, you are responsible for the successful development of software projects to our international client base.

What you'll be doing:

- Customer-specific project development and core platform product development including:
 - Contribute to estimates and actively participate in the agile planning activities
 - Configuration and deployment management for project releases
 - Support the Product Owner and Project Manager in maintaining back logs
 - Design and develop sustainable products in line with best practice, relevant standards and technological developments
 - Ensure developed solutions deliver true business value meeting customer requirements by working closely with the Project Manager
 - Encourage and participate in pair-programming and test driven development
 - Escalate project issues appropriately and communicate project changes proactively to the Project Manager
 - Use problem solving skills to overcome technical issues
 - Assist QA with software application testing as needed
 - Provide guidance and advice to the Support Team as required
- Stay abreast with technical development and trends
- Implementation of new tech when required
- Foster collaboration and communication amongst team members
- Participate in cross-functional process improvement initiatives

- Perform other related duties as required and assigned
- Contribute to core product development
- Adhere to 15below policies and company values

Skills we want:

- BSc Computer Science or similar
- Agile software development experience
- Excellent software development skills (C#, F#, VB, SQL, XSLT, WCF, Web Api, ASP.NET)
- Design and implementation of services using WCF or other service-oriented technologies
- Experience using Visual Studio and Git
- Excellent Object Oriented design skills (Design Patterns, SOLID)
- TDD (Test Driven Development)
- Experience of continuous integration, continuous deployment and automated integration testing.
- Ability to operate independently within defined methodologies, procedures, and guidelines
- Excellent communication skills
- Good problem solving and analytical skills
- Technical writing skills

Skills to impress:

- Experience with Change Management processes
- Experience with MS SQL Server 2008 R2
- Experience of writing high performance software (Threading, Async IO)
- Experience of messaging systems (RabbitMQ)
- Experience and proficiency with cross-browser, cross-platform development
- Airline Industry, Reservation Systems, Travel Industry

What kind of person you are:

Naturally we're looking for the best. We want someone who:

- Thrives on challenges, loves grappling with complexity and can make the most difficult concepts easy to understand using sincere and clear communication skills
- Collaborates effectively with other disciplines and can be trusted to deliver
- Wants to invent cool, progressive stuff that's useful to the industry
- Has a calm presence of mind and a strong sensible streak
- Knows how to have a bit of fun now and again

What's in it for you?

Work is a big part of life, so it has to be challenging and enjoyable. This job is about empowering you to do your best work as part of a fantastic team.

Package	25 days annual holiday
	Private Medical Insurance
	Life assurance
	5% Employer Contribution Pension Scheme
